BUN RACK COVER

Ideal for food service operations, supermarkets, bakeries and institutional feeders. Strong, tough, tear resistant and easy to identify contents of bun rack. Ideal for proofing dough, transporting prepared foods, salads and provides an excellent moisture vapor barrier.

Area of use

Provides protection for foods stored in full size standard racks that will keep foods moist and fresh and keeps dust out.

Material

HD polyethylene

Packaging

On roll

Recycling

Recycled as soft plastic or incinerated. The energy extracted during incineration can be used for heating.
