COVER FOIL IN DIFFERENT COLORS AND THICKNESSES

Cover foil in different colors and thicknesses made of recycled low density polyethylene. Foil is an effective protection against paint, dust and odor in eg construction and renovation, and contributes to a clean and structured working environment.

Area of use

Effective protection against paint, dust and odors and contributes to a clean and structured environment.

Material

LD-polythelyne

Packaging

Packaged on roll

Recycling

Recycled as soft plastic or as incineration. The burning of the plastic forms only water and carbon dioxide. The energy that is extracted during the process can be used for example for warm-up.
